# Change History since PDR

Design Review

Slide #	Description
10	Deleted slide per new design.
11 - 15	New slides added to reflect the new multiple file upload design.

# Solution / Requirement

Design Review

- For the Miscellaneous Documents section in the COR Online File:
  1. Add overall search feature for individual documents.
  2. Add sort feature to sort documents, dates, etc. in ascending/descending order.
  3. Add capability to edit a document title.
  4. Add capability to allow multiple document uploads at one time (in same category).

Each column will be sortable ascending and descending via a dropdown.

Each column can be filtered via typing or selection in the appropriate input field and tabbing or clicking out of that input field.

For the **Month / Year** column, the user may enter a month, year, or both.

The **Document** and **Created By** columns will contain input boxes that use a contains to filter on those columns.

The **Document Type** column dropdown defaults to All Document Types. The user may select an item from this list to filter on a specific document type.

The **Created On** column contains a calendar picker that allows the user to choose and filter on a specific date.

A **Clear Filters** button will be available to clear any filters the user has entered.
